EDUCATION

University of Texas at Arlington *May 2027*
Computer Science B.S; Cumulative GPA: 3.8
Relevant Courses: Databases Systems and File Structures, Coding for Data, Querying for Data, Algorithms and Data Structures, Programming Languages, Theoretical Concepts CSE, Professional Practices, Fundamentals of Software Engineering, Object Oriented Programing

TECHNICAL/SOFT SKILLS

Programming: Python, SQL, C/C++, Java, JavaScript, HTML/CSS
Frameworks & Libraries: Pandas, Plotly, PyTorch
Utilities & Workflow: JupyterLab/Jupyter Notebook, VS Code, PyCharm, Git, GitHub
Systems & Tools: Git, GitHub, VS Cod
Soft Skills: Leadership, Collaboration, Integrity, Adaptability, Innovation

WORK EXPERIENCE

Inventory Operations Specialist
Best Buy - Cedar Hill, Tx *Jun 2022 - Present*

- Managed logistics for 1,000+ incoming shipments monthly, unloading, inspecting, and categorized products to ensure accurate, damage-free inventory handling.
- Leveraged Warehouse Management Systems (WMS) to track inventory in real time, enhancing operational efficiency by **10%**.
- Coached 5+ new hires, streamlining onboarding processes and reducing training time by 30%, resulting in improved team productivity.

IT Systems & Web Intern
DFW Ghana SDA Church - Grand Prairie, Tx *Jan 2024 - Present*

- Implemented secure data handling practices by setting up backup strategies and assisting with encryption protocols for 500+ member records.
- Developed and maintained internal web dashboards and pages that improved data accessibility, visual presentation, and organizational efficiency across departments.

Data Analyst / Data Scientist
FAPEMPA LLC -Remote *Feb 2023 - Dec 2024*

- Automated financial reporting processes utilizing Python (Pandas), improving data accuracy and decision making across 10+ Ghana based sites.
- Developed data-driven insights and visualizations to track expenses and inform executive decisions, ensuring accuracy for over $200K in annual transactions while identifying opportunities to reduce operational overspending by 15%.

PROJECTS

Data Analyst – Website Performance & Audience Insights *Jul 2025*

- Analyzed 2,000+ web traffic entries from the Grammy Awards and Recording Academy websites to uncover trends in user engagement, session behavior, and event-driven traffic spikes.
- Utilized Python (Pandas, NumPy, Plotly) for data cleaning, transformation, and time series analysis, integrating multi-source web analytics to visualize key metrics such as bounce rate, session duration, and device segmentation.
- Developed interactive dashboards to compare Grammy performance against the American Music Awards (AMA), delivering insights that informed strategies for improving mobile optimization and year-round engagement.

Data Analyst – Planetary Weather Data Analysis *Jul 2025*

- Conducted in-depth analysis of multi-year planetary weather data from Mars, handling large-scale time series of temperature, pressure, and atmospheric opacity.
- Utilized Python (Pandas, Plotly) to clean, filter, and transform raw measurements, ensuring high-quality data for analysis and visualization.
- Developed clear visualizations (line charts, bar charts) to highlight recurring environmental patterns, while addressing data artifacts and missing values to improve analytical reliability.

CAMPUS LEADERSHIP INVOLVEMENT

UTA National Society of Black Engineers - Parliamentarian *May 2024 - Present*

- Facilitated structured decision-making for a chapter of 50+ active members by enforcing parliamentary procedures during executive and general body meetings.
- Documented and distributed meeting outcomes, improving follow-through on action items and increasing board accountability by 30%.
- Mentored 5+ new interns and board members, ensuring alignment with chapter goals and smooth adaptation to leadership roles.

UTA ColorStack - Recruitment Co-Director *Sept 2025 - Present*

- Designed workflows to automate membership intake forms and tracking systems, improving onboarding efficiency and reducing manual processing time.
- Developed new membership value initiatives increasing member retention and incentivizing paid membership participation, strengthening overall chapter sustainability.

Awards & Certifications

- **Python & Data Certification**
- **Querying Data Certification**
- **AI Professional Skills Certification**
- **Intercultural Skills Certification**
- **University Studies Dean's List**
